Have your basic practice information and NPIs for the clinicians you want to be included from your practice. This can range from just one, especially if yours is a solo practice, to as many as you want to see performance data on. PRIME Registry is family medicine's only specialty outpatient quality registry, open to all primary care clinicians, including Family Physicians, general internists, general pediatricians, nurse practitioners, physician assistants and many other clinical team members. Password complexity requirements. Must be at least eight characters in length. Must contain at least one upper case letter (A through Z). Must contain at least one lower case letter (a through z). We chose ClearTriage to provide protocols for the nurses in my after hours telephone triage company. We service over 750 pediatricians nationwide so it was imperative that we have a service that was reliable and could integrate into our current system.
