Matthias Kaeding discusses Bayesian methods for analyzing discrete and continuous failure times where the effect of time and/or covariates is modeled via P-splines and additional basic function expansions,... Bayesian Analysis of Failure Time Data Using P-Splines. Among others, existing algorithms for the grouped Cox and the piecewise exponential model under interval censoring are combined with a data augmentation step for the applications. The author shows that the resulting Gibbs sampler works well for the grouped Cox and is merely adequate for... perfectly. bayesian analysis of failure time data using p splines bestmasters PDF, ePub and Kindle document is now handy for forgive and you can access, way in and save it in your desktop.
