The purpose of this book is to examine the opportunities for, and limitations to, empowerment among adults with severe mental illness who, historically, have lacked power and have been the focus of stigma and discrimination. Its central premise is that despite significant limitations to empowerment, people with severe mental illness can be empowered when certain conditions are met. Editorial Reviews. Reviewer: Gary B Kaniuk, Psy.D.(Cermak Health Services) Description: This book describes how to empower individuals suffering from severe and persistent mental illness. It is a practical guide, providing a step-by-step approach to helping the mentally ill make choices and decisions for their own well-being instead of others doing it for them.
