

Download Ford Ranger Manual Transmission Wont Engage

Ranger & B-Series - 98 Ford ranger 4.0L 4x4 wont engage! - I have a Ford Ranger 4X4 4.0L The four wheel drive will not go in. The front drive shaft is turning but the hubs don't seem to catch. I just finished changing out both of the wheel bearing assemblies. I took the hubs back off and cleaned them with brake clean...Manual Transmission problem - So I have an 88 ranger. It's a five speed and the shifter went into fifth gear and got stuck. It acts like it's in neut...1999 ford f150 ,4x4 wont engage - bad acuaitor,or motor on back of transfer case.or striped splines on front axle.I have a 1999 Ford Ranger four wheel drive manual. How I found out front wheel drive was not working was the AC would not blow into the cabin at high speed or hard acceleration.
