

# Download Genes On The Menu Facts For Knowledge Based Decisions

BRCA1 and BRCA2 are human genes that produce tumor suppressor proteins. These proteins help repair damaged DNA and, therefore, play a role in ensuring the stability of each cell's genetic material. When either of these genes is mutated, or altered, such that its protein product is not made or does not function correctly, DNA damage may not be repaired properly. Genes has no restrictions on the length of manuscripts, provided that the text is concise and comprehensive. Full experimental details must be provided so that the results can be reproduced. Genes requires that authors publish all experimental controls and make full datasets available where possible ...Decisions are the heart of success and at times there are critical moments when they can be difficult, perplexing and nerve racking. This side provides useful and practical guidance for making efficient and effective decisions in both public and private life. There are over 300 different psychiatric disorders listed in the DSM-IV. Our guide includes the etiology, symptoms, treatment, and prognosis for mental disorders. AllPsych is part of Psych Central's virtual psych classroom.
