How the EPA conducts risk assessment to protect human health and the environment. Several assessments are included with the guidelines, models, databases, state-based RSL Tables, local contacts and framework documents used to perform these assessments. The New Zealand Primary Care Handbook 2012 provides summary guidance from a collection of guidelines and is intended as a convenient reference for health professionals. This edition includes new content on the management of type 2 diabetes, weight management, stroke and transient ischaemic attack, heart failure and rheumatic fever. With members and customers in over 130 countries, ASQ brings together the people, ideas and tools that make our world work better. ASQ celebrates the unique perspectives of our community of members, staff and those served by our society.
