

Download Johnson Manual Leveling Rotary Laser Level Kit

Johnson Level & Tool indoor rotary laser levels with GreenBrite Technology have 400% greater visibility than the red lasers used in all other rotary laser levels in this price range. Our rotary laser levels allow you to snap a level line around a room within seconds – even when the floor or building foundation is not level. The Johnson Level and Tool Manual-Leveling Rotary Laser Level is built for a variety of layout and leveling applications. The level gives off a vertical laser plane and has a 90° split beam for versatility. The scan line can move both clockwise and counter-clockwise, and the large and small scan modes achieve chalk lines. Manual-Leveling Rotary Laser Level Kit MODEL #: 40-6507 With large and small scan modes that simulate a laser line and a manual-leveling feature in horizontal and vertical planes, this rotary laser is the perfect tool for any number of indoor or outdoor jobs. Johnson Level & Tool 99-006K Self Leveling Rotary Laser System Kit, Soft Shell Carrying Case, Alkaline Battery, Tripod, Mounting Bracket, 13ft Grade Rod, Magnetic Target, Protective Glasses (2-(Pack))
