

# Download Mac Eject Disc Command Line

The easiest way to unmount a drive in OS X is to either just drag a volume into the Trash, use the eject keys, disconnect the drive, or use one of the force eject methods. Along the same lines, if you want to remount a drive you can usually just physically unplug the drive and plug it back again ...We respect its storied history, and value the contributions of its many readers, but we can no longer support it at the level it deserves. There's a wealth of great information here that many will find useful, so we've elected to maintain it in a read-only form. Thanks for your many years of ...Is a DVD or CD stuck in your MacBook or MacBook Pro? Having a disk jammed in your Mac is really frustrating, but you can usually get it out by using a few different tricks. The methods outlined below are for when a disc is truly stuck in the Mac. \* Reboot the MacBook / MacBook Pro and hold down the ...BeebEm is a BBC Micro and Master 128 emulator. It enables you to run BBC Micro software on your PC. BeebEm was first developed for UNIX systems in 1994 by Dave Gilbert and was then ported to Microsoft Windows.. To run the latest Windows version of BeebEm you will need Windows XP or later (v4.03 runs on Windows 98). ). The UNIX version will run on most UNIX based systems and Linux (the Windows ...
