METHODS IN CLINICAL PHARMACOLOGY In?ammation induced by inhaled ... British Journal of Clinical Pharmacology Br J Clin Pharmacol (2016)82 1371–1381 1371 ... The size of inhaled droplets is a physical parameter that affects total and regional deposition in the respiratory system. WHAT THIS STUDY ADDS Experimental sciences rely on technical methods. In the case of clinical pharmacology, methods are often used that have been developed by other disciplines, such as analytical chemistry (eg high performance liquid chromatography, gas chromatography, mass spectrometry), biochemistry/molecular biology ...
