

Download Microbiology Instructor Manual

VirtualUnknown™ Microbiology is designed as a "flight simulator" for the microbiology lab. Our goal is to provide a "near-lab experience" for students without ready access to a microbiology lab who want more practice, access to additional instruction and resources, and more feedback to enable them to hone their skills.

1: Reproduction in bacterial cells occurs by the sequence of events known as _____. mitosis: binary fission: selfing: budding: 2: Psychrophilic bacteria species grow well at 10 degrees C, while mesophilic bacteria species grow well at _____ degrees C.1: The ability to maintain a relatively stable internal state is called _____. homeostasis: metabolism: equilibrium: balancing: 2: A _____ is a communal association of microbes.

MCO would like to take this opportunity to formally welcome clients from Dr. Michael Richard. We are honored to have a strong working relationship with him and value the opportunity to earn your business and trust moving forward.
