Electrical Engineer Training Library. As the Electrical Engineering industry advances, your need to understand the NEC is becoming greater. Whether you need to pass your Electrical Engineering exam, or design a system that is Code compliant and meets the needs of your client, completely understanding the NEC is essential and no-one teaches this better than NEC Expert, Mike Holt. Mike Holt, a widely recognized expert on the topic of the National Electrical Code, has made the portion of his guide that deals with the NEC's Chapter 8 available for free download on his website. The full guide is entitled "Mike Holt's Illustrated Guide to Understanding the National Electrical ...Bonding and Grounding (textbook) One of the most confusing areas of the trade continues to be Grounding and Bonding. This textbook belongs in the hands of every Electrician, Inspector, and Engineer who needs to understand the seemingly conflicting information of how to properly apply the NEC rules of Grounding and Bonding. Article 410 of the NEC covers luminaires, lampholders, lamps, decorative lighting products, lighting accessories for temporary seasonal and holiday use (including portable flexible lighting products), and the wiring and equipment of such products and lighting installations.
