Functions of the Nervous System. Animals interact with their environment. So, it's only logical that in order to take advantage of any benefits and avoid possible dangers, they need a way to be ... The Nervous System Secrets of The World's Best Guitarists A Scientific Report Written By Virtuwal Kinesiologist, Bsc. Science of Physical Activity Neuroregeneration refers to the regrowth or repair of nervous tissues, cells or cell products. Such mechanisms may include generation of new neurons, glia, axons, myelin, or synapses. Neuroregeneration differs between the peripheral nervous system (PNS) and the central nervous system (CNS) by the functional mechanisms and especially the extent and speed.
