Also for: Mission 3, Mission 2, Mission 1, Xsl ...Posted Thursday 17th May 2012 – The Specialized Roubaix, named after the infamous Paris-Roubaix road race, is Specialized's high performance endurance focussed road bike built on the idea that when it comes to spending a long time in the saddle a smoother and more comfortable ride will ultimately mean you can ride faster for longer. We had fun designing the Rove NRB DL. With homage to its steel cousin, the NRB has creative geometry to allow for bigger tire clearance, and custom dropouts that are easily used with fenders. The Sight Aluminum was developed simultaneously with the Sight Carbon to ensure the same geometry and suspension kinematics and a similar ride feel on both models. Modern geometry and suspension kinematics deliver a fast, stable and playful ride for endless two-wheeled fun on a wide range of terrain. A high-end component selection and the use of premium alloys as frame material turn the Sight ...
