To Order Your Book Click [HERE!](#) Stakeholder Health: Insights from New Systems of Health, developed with support from the Robert Wood Johnson Foundation, is a rich and detailed review of some of the best practices in the areas of community health improvement, as well as clinical and community partnerships, spanning 11 chapters. Stakeholder Health: Insights from New Systems of Health, developed with support from the Robert Wood Johnson Foundation, is a rich and detailed review of some of the best practices in the areas of community health improvement, as well as clinical and community partnerships, spanning 11 chapters. Stakeholder Health: Insights from New Systems of Health Editors: Teresa F. Cutts and James R. Cochrane Developed with Support from the Robert Wood Johnson Foundation The Stakeholder Health learning collaborative is also distinctive in who is asking and answering that profound question. Many of us work at fairly high levels in the hospitals, often for most of our careers. We know health systems from investing our time, energy and mind in them at all hours on the clock, year after year.
