The 504M/505M CLASSICS offer three choices for bale monitoring. A simple, standard electric controller for twine tie or net wrapping operations is easy to operate. The Accu-Bale® Select Bale Monitor (optional) controls twine or netwrap settings, bale size, overfill protection and alarm controls, as well as manual override and pause functions. BaleIf you are the current owner of Vermeer used equipment, free replacement manuals are available by registering your used Vermeer machine.
